

**The Mississippi River** is North America's second largest river and home to many indigenous tribes. Ancient tribes, known as the Mound builders, built **strategically placed** sacred sites out of dirt, called mounds, along the river. From the Great Lakes to the Gulf of Mexico over 100,000 sacred mounds form a network of ley lines, protecting and balancing the Earth. The majority are built in the Mississippi and Ohio River Valleys. Many are shaped like pyramids, most depicted animals, and most of these huge mounds can only be detected from the air. The Mound Builders built magnificent temple mounds, the earthen equivalents to the temple pyramids of the Aztecs and the Maya. Monk Mound is a 100-foot high pyramid mountain, connecting Earth to Heaven. It is Earth's largest earthwork with a base greater than the Great Pyramid Giza. At these sacred sites ancient people opened their hearts toward Father Sky and Mother Earth, dancing, singing and worshipping. The most celebrated mound is the **Great Serpent Mound**.

**TRUST NOW, RECEIVE ALL THE ANSWERS IN THE HEREAFTER** because what comes afterward is unknown to you! Ken called and told me he bought a **generator quartz crystal**, which focuses your own energy, according to your intentions. He was driving, holding it in his left hand, when a car swerved in front of him, causing him to swerve into oncoming traffic. He saw a woman screaming, then lost consciousness and awoke in the right lane with no one around him. He wanted to know if the crystal caused it. **I went into my meditation room to speak with the two angels.** They directed me to tell Ken that he and **Juan Concha**, who had died two years earlier, had agreed to trade places for two years. This is a subject unknown to the general public but is known in many parts of the world. Advanced spirits can "walk into" other bodies under certain conditions. The selected person may have special skills, knowledge or a position they need to complete a specific task. I also walked into this body but forgot until the angels told me I had lived before from 1850–1890. When I told Ken, he said, "You really are crazy," and hung up! But I spoke the truth, following my inner guidance, trusting Great Spirit!

Ken's wife called. Angrily, she said, "Did you give Ken drugs? He is dancing naked with eagle feathers in his hair!" Then Ken called and said, "I am directed to go with you to the Yucatan." When we arrived, I told Ken that the eight pyramids were built in **specific locations** to channel the energy of the land. They were placed in an ever-widening spiral, beginning in Uxmal, Mexico, running south and north, reconnecting, forming a circle. They are connected to many spirals of **female energy sites** that begin in Tikal, Guatemala, where the energy moves south to Central and South America, crosses the Pacific Ocean to the Polynesian island of **Moorea**. It moves north from Guatemala to Mexico, crosses the U.S. border into New Mexico to three pyramids built by Native Americans to bridge the energy further north as no natural energy field existed there, it continues west to California, crosses the Pacific ocean, south to **Moorea**. An axis runs through the Earth from Moorea to the Giza Pyramid in Egypt. Moorea is the **most female place on Earth**, focusing the entire energy of the **Unity Consciousness Grid** though her sacred center. You feel **the love** in the hearts of the people you meet living there.

**WITH A MERCIFUL MOTHERLY LOVE BE READY TO OPEN HEARTS!** Over 83,000 sacred sites function as a single unit, creating the impetus that forms the **Grid**. A single consciousness conceived and created this amazing Web of Life. The female aspect of it needed to be balanced to enable **the sacred female consciousness to become a living reality**. Women everywhere will awaken, remembering their intimate connection with God and know exactly what to do to bring balance in the world. The Mayan Calendar says we are at the end of a cycle and the female will be given the power to decide the direction the Earth will move and **she must absolutely be ready!**

**ON AUGUST 5TH CELEBRATE THE EUCHARIST WITH OUR LADY OF SNOWS.**

**"DEAR CHILDREN:** God called me to **LEAD YOU TO HIM** because He is your strength. That is why I am calling you to pray to Him and to trust in Him, because He is your refuge from every evil that lurks and carries souls far from the grace and joy to which you are all called. Little children, **LIVE HEAVEN HERE ON EARTH** so that it may be **GOOD FOR YOU** and may the **COMMANDMENTS OF GOD** be a light on your way. I am with you and **I LOVE YOU ALL WITH MY MOTHERLY LOVE.** Thank you for having responded to my call!" (Med. 7/25/18).

## SPEAK TO GOD AND DIRECT YOUR THOUGHTS TOWARD HIM AT SACRED SITES!

### To Live in Peace and Harmony with Heaven on Earth, Celebrate the Eucharist!

**“DEAR CHILDREN: WITH A MOTHERLY LOVE I AM CALLING YOU TO OPEN hearts** to peace—to open hearts to my Son, so that in your hearts love for my Son may **SING**—because only out of that love peace comes in the soul. My children, I know that you have **goodness**, I know that you have **love—a merciful love**, but many of my children still have a **closed heart**.

They think that they can do it **without directing their thoughts** toward the Heavenly Father, who illuminates toward my Son, who is always with you anew in the **Eucharist**, and who desires to **listen** to you. My children, **why do you not speak to Him?** The life of each of you is important and precious, because it is a gift from the Heavenly Father for eternity. Therefore, do not ever forget to keep on thanking Him—**speak to Him!**

“I know, my children, that what is to come afterward is unknown to you; but when your hereafter comes, you will receive all the answers. **MY MOTHERLY LOVE DESIRES THAT YOU BE READY!** My children by your life keep putting **good feelings** in the hearts of the people whom you meet—**feelings of peace, goodness, love and forgiveness**. **Through prayer, hearken to what My Son is saying and act accordingly (follow His directions)**. Anew, I am calling you to pray for your shepherds, for those whom my Son has called. Remember that they need prayers and love. Thank you" (Med. 8/2/18).

**OUR LADY OF SNOWS:** (Rome 352 A.D.) *A wealthy couple who had no heirs offered their wealth to Mary in prayer. On a hot summer night she spoke through a dream, directing them to build a church, saying the selected site would be covered in snow. In the morning Esquiline Hill was miraculously covered in snow! The magnificent Basilica of St. Mary Major was built and still stands today, where people gather to sing and speak to the Heavenly Father, directing their thoughts toward Him by celebrating Jesus in the Eucharist. In 1958 the Missionary Oblates purchased 80 acres in Illinois, overlooking the Mississippi River Valley, and built a shrine to Our Lady of Snows. It has grown into a 200-acre Gospel-based theme park, lighting the way for millions of spiritual seekers. The buildings, memorial walls, sacred gardens and landscape were strategically placed at carefully selected sites, creating the feeling of the peace and harmony of Heaven here on Earth!*

**SERPENT OF LIGHT: BEYOND 2012** is a book by Drunvalo Melchizedek, a Taos Indian, who through prayer receives interior directions from two angels and St. Thoth. It explains the Mayan Calendar predication of a **geomagnetic pole reversal** (Ark Box 5). It is condensed in these cards and interwoven with Mary's ongoing messages and the Catholic Calendar. Thoth asked Drunvalo to help fix the **female part** of an electromagnetic grid, forming around the Earth, called the **Unity Consciousness Grid**. If the Grid is functioning perfectly, people's thoughts will be directed toward a higher level of consciousness, Christ Consciousness—**merciful motherly love**. The Grid is formed by the spiritual energy that comes from **sacred sites**. If the sites function absolutely perfectly as **one harmonious unit**, the catastrophic effects of the pole reversal will be mitigated. The **Serpent of Light**, a sacred energy located in the Andes Mountains, coming from the center of the Earth, is sending out a frequency to help people access the Grid. Series 5 began with Ark Box 5 and card 89. Chapters 5 and 6 follow: “Balancing the Female Aspect of the Grid” and “The Yucatan and the Eight Temples.”

**DIRECT CRYSTAL CLEAR THOUGHTS TOWARD GOD AT SACRED SITES!** When I asked Thoth for directions on how to balance the Grid, he said, “Drunvalo, Simply follow your heart! You must plant a **crystal** at eight sacred Mayan temples in the Yucatan. **They must absolutely be perfectly placed to function**. We will direct you where the first four go, but you must discover within yourself where the last four go. **You must have an open heart to complete this task.**”

## HOW TO LIVE IN PEACE AND HARMONY WITH HEAVEN ON EARTH! **Geomancy** or *Feng-Shui* is

the sacred Chinese art of **strategic placement** of structures and landscape to harmonize and harness Heaven and Earth's natural vital energies by balancing opposing forces. You must know how the power of nature, **wind** and **water**, act on a place. The layout must encourage and amplify positive, good energies, mitigate negative ones, and defuse evil forces lurking at the site. This will bring health, prosperity and feelings of happiness, peace and goodness to the people whom you meet living there. Buildings, walls and landscape create alterations in the environment. A geomant practitioner determines what effect changes will bring and whether the environment should be affected at all. A geomant's task is **completed** when three elements harmonize: **Heaven**—astrological time factors; **Earth**—geological and weather factors; and most important, the **human factor**. To achieve harmony the structures and landscape, natural and manmade, must be in the correct place, facing the correct direction. The geomant must do the correct thing at the correct time and **must absolutely celebrate the Supreme Being ritually correct** to be in harmony with the Universe. Colors also affect the environment, countering harmful influences and enhancing good ones. **Crystals** and mirrors harness and manipulate energies. A geomant must use knowledge, experience and intuition (*follow their open heart*) to be directed to the right site. By living in harmony with the laws of **Mother Nature**, one can absolutely live in peace here on Earth, mitigating the **catastrophic effects** of natural forces.

For 40 years the spiritual leader of my Taos tribe in New Mexico, **Juan Concha**, visited my sister Nita in California to make sure that she, her son Ken, and I never forgot our roots. The tribe had work for us in the future. In 1971 when the two angels first appeared to me, I was “awakened” and “remembered” I had lived before from 1850–1890 in the Taos pueblo and that my sister Nita was my mother then and Ken was my father. In 1980 the two angels directed me to return to my tribe to begin my training. I thought I would be welcomed by open hearts, but I was told to wait in town until the time was right. Two years later I was asked to come to a tribal ceremony, which began a 12-year training program, where I was taught on spiritual levels and shown the tribal way to use **crystals**, fetishes (sacred objects), and dreams to **create realities**.

Nita had awakened first, but Ken had a **closed heart** to spiritual things. He was very wealthy, living a material life until **Mother Earth** decided the time was right for him to awaken. At a party a woman gave him a life-changing tarot card reading. Pointing to his third eye, she said, “Ken, you must go visit your uncle Drunvalo. He has something to teach you.” When Ken arrived at my humble home with his three-piece suit and Lincoln town car, he demanded to know what I had to teach him. **I went into my meditation room to receive an answer**. The two angels directed me to teach him about **crystals**. Ken responded, “Rocks! How are rocks going to help me!” I explained that crystals are actually **alive** and **conscious**. Silicon, the primary element of quartz crystal and 80 percent of earth's crust, is the element below carbon on the periodic table of elements. Scientists thought that every living thing was made of carbon, but in the 1950s they discovered that silicon displayed the same exact principles of life as carbon. Silicon life-forms have been found deep in the ocean that are **alive, conscious** and **reproductive**.

**Crystals receive and send thoughts, words and feelings**. The first radios were made by touching wire to a quartz crystal and the radio signal came through a **speaker**. The crystal was picking up the electromagnetic signal in the radio band of frequencies. Human **thoughts** are also found in this electromagnetic range of frequencies. Thoughts are very long wavelengths compared to radio waves, otherwise they are exactly the same. Computers use crystals. It is the living nature of crystals that allows them to function. Natural crystals can hold a program, which means a **thought pattern**, and can continue to play that thought pattern for eternity unless someone erases the program. **A correctly programmed crystal can change, influence and direct human thoughts, hearts and consciousness over vast areas of Earth toward God.**
