

“DEAR CHILDREN: My heart is joyful because through these years I see your love and openness to my call. Today I am calling all of you: pray with me for **peace** and **freedom** because **Satan** is strong and by his **deception** wants to lead away all the more hearts from my **motherly heart**. That is why **decide for God** so that it may be good for you on the earth, which God gave you” (Med. 6/25/21; 40th anniversary message through Ivanka).

CONSCIOUSLY DECIDE TO TRANSFIX ON JESUS’ IMAGE to counteract the effects of Satan’s deceptive images, subtly leading our minds away from God! Physicists are studying subtle body energies and their effects on the world outside the body. The Chinese call this energy *chi*; Indians call it *prana* or *kundalini*, and Japanese call it *ki*. Parapsychologists refer to it as bio-plasmic energy and have measured it and even photographed auras using kirlian photography. Russian and Czechoslovakian scientists have studied bio-plasmic energy and its relation to healing, telepathy and psychokinesis. They studied a woman who used visualization to change her bio-plasmic energy fields, and then she could move physical objects. Such studies confirm occult beliefs that electromagnetic energies exist in things like auras and astral bodies. They demonstrate **THAT VISUALIZATION PRODUCES ENERGY THAT DIRECTLY AFFECTS OBJECTS IN THE EXTERNAL WORLD.**

Be Joy! Everyone has some awareness of how the images and thoughts they decide to hold in their mind can affect the world around them. You probably noticed that if you awaken filled with joy and decide to have a positive image of yourself and the coming day that the image itself will manifest in the external world. People you meet will also tend to feel joyful or will become so in the presence of your positive attitude. Events that draw your attention are likely to be positive, or you will tend to see something positive in them. A person who notices this kind of causality feels that the images they decide to hold in their mind will become their reality. The effects may even extend beyond daily events into the future. For example, a person who dreams of moving may find that through no effort of their own an opportunity to move arises and many of the characteristics of the new environment correspond to what they had imagined.

Be Spiritual Internally! Many decisions you make are based on inner images you are unaware of. These unconscious images often surface first in dreams, daydreams and fantasies, and then manifest themselves in the world around you. The renowned psychiatrist Carl Jung constructed a theory on the **psyche mind**. He depicts the **ego**—a person’s **conscious** awareness—as a small illuminated area in the large sphere of the dark mind. The ego is the “eye” that sees images that can come from all parts of the psyche mind. He believed that at the center of the psyche mind is the **unconscious self** or **soul**. The self is the inventor, organizers, and source of dream images. **He theorized that the unconscious self sends images to the conscious ego and these images are necessary for inner growth and development.** Thus, a person should examine their own inner images and use them to keep on the right path of development at the proper rate. Images function to give a person the help they need at all points in their spiritual growth.

Be a Reflection of God’s Love! Jung theorized that inner images are a homeostatic mechanism—they balance the universe. He believed **A PARTICULAR IMAGE WILL SURFACE IN MANY PEOPLE’S DREAMS WHEN IT IS NEEDED TO SOLVE A COMMON CULTURAL PROBLEM OR GIVE INSPIRATION.** If you hold an image in your mind, it will manifest in the outer world, making each of us a creator and visualization the mechanism for our creation. Visualization then becomes reality, which is **A REFLECTION OF INTERNAL IMAGES.** Science and metaphysics now agree that each of us has the power to create and change the world. Through visualization inner and outer become one!

THERE ARE ENLIGHTENED BEINGS ON EARTH WHO HAVE MANY GIFTS OF SPIRIT TO BE USED AS YOUR FUTURE BECOMES MORE APPARENT. SOME COMPUTER SCIENTISTS ARE AWAKENING TO THEIR TELEPATHIC POWERS AND PSYCHOKINETIC ABILITIES, WHICH CAN INFLUENCE PHYSICAL SYSTEMS WITHOUT ANY PHYSICAL INTERACTION. (S7/card 11)

REIGN IN PEACE! TRANSFIX ON JESUS ON THE FEAST OF THE TRANSFIGURATION AUGUST 6TH. TO SOLVE A COMMON CULTURAL PROBLEM YOU MAY BE INSPIRED BY AN IMAGE IN YOUR DREAMS!

“DEAR CHILDREN: With joy I am calling all of you, little children, who have responded to my call: Be joy and peace! Witness with your lives Heaven, which I am bringing to you. It is time little children that you be a reflection of my love for all those who do not love and whose hearts hatred has conquered. Do not forget that I am with you and intercede for all of you before my Son Jesus that **HE MAY GIVE YOU HIS PEACE**” (Med. 8/25/21).

HOW TO BE FILLED WITH INTERNAL AND NOT JUST EXTERNAL JOY! To End Satan's Peaceless Reign, Conquer Pride and Selfishness!

"DEAR CHILDREN: In a motherly way, I am calling you to return to the joy and the truth of the Gospel—to return to the love of my Son, because He is waiting for you with open arms; that everything you do in life you do with my Son, with love; that it may be blessed for you; so that your spirituality may be **internal**, and **not just external**. Only in this way will you be humble, generous, filled with love and joyful; and **my motherly heart** will rejoice with you" (Med. 3/18/21; annual message through the visionary witness Mirjana).

SEEING WITH THE MIND'S EYE (1975) is a book by Mike Samuels M.D. and Nancy Samuels. In this series I abridge the book and integrate it with Mary's current messages, the Catholic calendar, current events, and messages from Archangel Michael from Series 7. Through this integrative process, I intuit a life-changing message! In March 2020, under the guise of COVID, government leaders closed all churches, thus labeling and categorizing the functions and expectations of God and churches as "non-essential." Church leaders, all those whose spirituality was external and not internal, were blinded in their minds by sin and complied with Satan's deception, thus waiving our First Amendment freedoms. On March 25th, Mary declared, **"Satan is reigning!"** The Health and Human Services Department through the CDC is using a massive media campaign of words and images to affect our minds, bodies and emotions. Their current affront to mandate the COVID vaccine is an intrusion into our personal lives and records. Michael says humanity must pass eight tests to prove our self-mastery and self-sovereignty—we must master our telepathic powers and fight to maintain our freedoms—to be able to graduate, ascend, and begin Christ's millennial reign (S7/card 11). **Test 5 is a war against the deceptions of the "medical manipulators."** They work for profit, capitalize on human pain and suffering, and control most of our medical care. Their goal is to take away our right to privacy of our medical records and distribute them into massive databases of information on our DNA genetic history and past illnesses. The manipulators and some employers want to use our private information to avoid costly treatments and other deceptive uses. **Test 7 is a war against deadly viruses, toxins, nerve gases, and other dangerous chemical substances**, developed by scientists, designed to wipe out our enemies (but has backfired on us). Michael says that we have forgotten our telepathic abilities and must learn to access them to pass these tests. **Mind radionics is an ancient meditation technique**, used to access them by opening your mind's eye—your third eye. It uses an image as a focal point to help your mind become quiet, free of intruding thoughts. Then you can control your thought patterns to affect energy fields and access intuitive information from higher realms. Chapter 6 follows: "The Effects of Visualization."

TO FEEL INNER JOY AND PEACE, CONTROL YOUR THOUGHTS! By its very nature visualization is experienced, not deduced. It involves **participation**; it involves **feeling a union** between the person and the object being visualized. It calls up an **emotional-physiological** response that involves your **whole being**. In 1972, psychologists began to study the effects that visualization has on the visualizer as directed by the U.S. Surgeon General. In 1982, the Health and Human Services Department published a report, based on 2,500 studies on the effects and influences television has on the emotional behavior of viewers (S8/card 1). It is theorized that visualization affects a person's **entire state of mind**. Most people in their daily activities are not aware of their inner state. They only become aware of it in the extreme—when they feel very joyful or very unhappy. They feel that things outside themselves—the events that befall them or the way people act toward them—produce these states. Most people have little control over their thoughts. Try to concentrate on counting your breath for a few minutes; other thoughts will enter your mind.

"DEAR CHILDREN: I am calling you to be prayer for all those who do not pray. Little children, witness with your lives the **joy that you are mine** and God will heed your prayers and give you peace in this peaceless world, where **pride and selfishness reign**. Little children, be generous and be the love of my love, so that pagans can **feel that you are mine** and convert to my **Immaculate Heart**. Thank you" (Med. 7/25/21).

END THE REIGN OF PRIDE AND SELFISHNESS WITH A SINGLE PURE THOUGHT OF JESUS! If you consciously visualize, *transfix on an object*, you will gain the ability to hold your mind on one object—to concentrate. This state of *one-pointedness of mind* has special properties: alertness, clarity of thought, identification with the object, and a feeling of participation. The **feeling of identification-participation** causes you to be less involved or absorbed with yourself as an entity separate from the world around you. You go beyond the boundaries and limitations of your physical body—beyond the awareness of your personality. The image you hold becomes the only thing in your awareness. The only goal you have in relation to the image is to hold it in your mind. Then your awareness of it expands and becomes multifaceted and you become open to all of its potentialities. You no longer see the image in terms of categories and labels or functions and expectations. Attachment and desire for the external world will disappear and you will see the image for itself, not as it relates to you. For the first time in your life you will see an image free of learned habits, cultural biases, and secondary gain. As you become aware of all its parts, inside and out, and all of its generalities and particulars, time and space disappear. There is no separation between you and the image; at this point there is just the pure experience of your psychic awareness as **you are drawn out of your selfish, prideful self into the object**.

TO END SATAN'S PEACELESS REIGN, RECEIVE PURE THOUGHTS FROM JESUS! Now that you are open unusual things happen! You receive information in the form of **images, words, ideas, feelings and sensations**. This knowledge is different from that of learned habits and biases. It comes from outside of you and you receive it internally. You **feel the joy** of uniting with the universe and being a part of creation, instead of just an observer of it. The understanding that you receive is pure and tied to the most universal of rhythms. This purity of vision, this one-pointedness of mind, surrounds the unity of the visualizer and the image and produces powerful energy. Different images have specific effects, inseparable from the pure nature of the image. **The specific effects affect your body, state of mind, and the peaceless world around you.**

SATAN AND THE CDC know that through our autonomic nervous system images affect our body and emotions! Our bodies react to internal mental images similar to how they react to external ones. Studies conducted on skeletal muscles, which are under voluntary or conscious control, show that if a person imagines running, their muscles show small measurable amounts of contraction. Thus, imagined running innervates (excites) the same neurological pathways as actual running. Neurological pathways run between the **cerebral cortex**, where images are stored in our brain, and the autonomic nervous system (ANS), which controls our involuntary muscles. The ANS is a self-regulating system, controlling the functions of organs such as the heart, lungs and blood vessels. Neurological pathways also run between the **pituitary gland** at the base of the brain and the ANS. This "master" gland tells other glands to release hormones that regulate functions like growth, blood pressure and adrenalin. Adrenalin causes the "fight or flight" reaction. **Through the brain's pathways to the ANS an image held in your mind can affect every part of your body.** The same nervous innervation that excites our voluntary and involuntary muscles excites our emotions. If you hold a strong **fearful** image in your mind, there is neuronal activity in your brain and your body responds through the ANS with symptoms like a higher heart rate, elevated blood pressure and tense muscles. If you hold a strong **peaceful** image in your mind, your body responds with a lower heart rate, decreased blood pressure and your muscles relax.
